CUSTOM BADGES

We recognize the design of your badge is highly personal, and our talented artists will work skillfully translating your ideas into a detailed artists rendering. Whether you want to capture a local landmark, historical building, or other iconic symbol our highly skilled die makers will translate the artwork into a steel die, which captures every subtle detail of your unique design. The badge slowly will come to life as it travels through the various manufacturing processes at our Massachusetts factory. The end result will be a truly unique badge that members of your department will treasure, and be extremely proud to pin on each day.
